

# Construction License Contract

for building one aircraft using the principles of the Spratt 103

I, (Full name) .....

(Address) .....

(City, country) .....

(E-mail + phone).....

accept by this contract the following :

- All documents relating to the Spratt 103 or the variable incidence wings concept are personal and non-transferable and I pledge not to disclose them by any means whatsoever.

- These documents are only valid for the construction of one aircraft, using all or part of the protected design.

- In order to receive benefits and to promote this concept, I accept to become a member of a national or local "Spratt 103" association (subscription offered to the construction licensee) and to have my contact information (name, email and city) available to other members.

- When my aircraft is completed and before any flight, I will declare it to the designer and clearly write on the extrados of the stabilizer (mini 25 mm /1" high) : *Spratt 103 Nr* (followed by the membership number that I receive with the drawings).

- I agree to respect precisely the provided drawings and advices and to take my full responsibility in building and flying this aircraft.

For approval (*date and signature*) :

*Due to its specificity, the Spratt 103 concept is protected by 5 patents and by copyrights in the 163 countries who have signed the Convention of Bern.*

*Any breach of terms of this agreement is illegal and will be prosecuted.*
